

# Company Fact Sheet

**Solidigm** (*saa-luh-dime*) is a leading global provider of innovative NAND flash memory solutions. Our origin reflects Intel's product and solutions leadership in the semiconductor industry and SK hynix's longstanding innovation and scale in memory products.

Founded:  
December 2021

CEO:  
Robert (Rob) Crooke

Employees:  
~2,000

Headquarters:  
San Jose, CA

Locations:  
20 worldwide

Our Purpose :  
To expand the  
possibilities of data  
that fuel human  
advancement

- Our mission is to be the go-to partner for optimized solid state storage solutions, and this is reflected in our name – a combination of the words “solid” and “paradigm.”
- We provide dynamic, high-level performance NAND flash memory solutions suited to excel in a variety of storage capacities with top-rated reliability.
- Our high-quality solutions unlock data's unlimited potential, allowing our customers to fuel their purpose.
- Solidigm intends to invest in U.S. R&D and create 900 additional high-paying jobs through 2024.

## Our Difference

- An unsurpassed commitment to customer success.
- Best at optimizing solutions for the markets we serve.
- Products with unparalleled quality, reliability and ease of use.
- Industry-changing invention within data storage.
- Industry's best problem solvers. We have an empowering and open environment based on trust and autonomy.

## Values and Culture

Solidigm's team-first culture ensures that we operate according to our values of customer inspired, invention, excellence, agility, openness and partnership. We believe integrity and transparency come first, and we hold ourselves to the highest ethical standards.

### Customer Inspired

We listen and deeply understand our customers' business and technology challenges, anticipate their needs, collaborate to solve problems together, and stand behind our commitments.

### Invention

We are technology-driven, exhibit a passion for innovation, demonstrate a 'possibility' mindset, imaginatively create the future, solve great challenges.

### Excellence

We are results-oriented and determined to win, operate with tenacity, demonstrate discipline and expertise, uphold integrity, focus on quality, and assume responsibility.

### Openness

We treat all people equitably, welcome different perspectives and new ideas, listen and give voice to others, and constructively confront problems.

### Agility

We act boldly and with urgency, are nimble and responsive, willing, and able to change direction quickly, take intelligent risks, and learn and adapt.

### Partnership

We build win-win relationships with teammates, customers, partners, and communities; exhibit trust and mutual respect, and place shared success over individual success.

## Socially Responsible

We are committed to being a responsible and sustainable company that fuels human advancement for all.
